

AV INSTALLATIONS

2003-2010

Implemented by

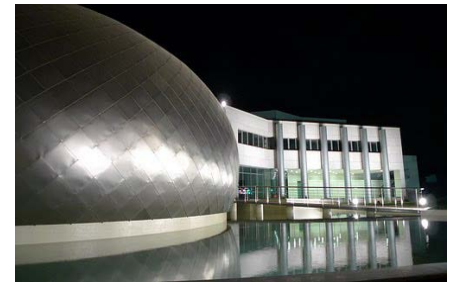

Customer: Village Roadshow

Project Description: Engineering design Supply of equipment and Installation of a) Digital Signage System in three sites, project delivered successfully in 2006 b) Supply of equipment and Installation of four Digital 3D Cinema systems, Public Information Display System , project delivered successfully in 2007 c) Supply of equipment and Installation of six Digital 3D Cinema systems, Public Information Display System , project delivered successfully in 2009 d) Supply of equipment and Installation of nine Digital 3D Cinema systems, Public Information Display System , project delivered successfully in 2010.

Customer: Ministry of Culture

Project Description : Supply of equipment and Installation of Six projectors, six media players for the implementation of Digital Museum applications, project delivered successfully in 2008.

Customer : ABISS S.A.

End Customer : Macedonian Museum of Contemporary Art

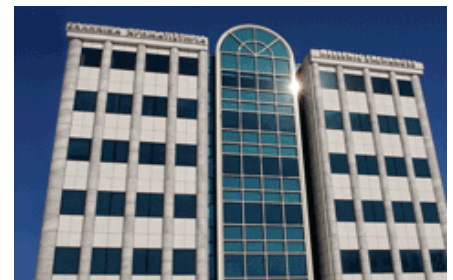

Project Description : Supply of equipment and Installation of a Plasma Wall System for the lobby of the museum, project delivered successfully in 2008.

Customer : Omikron Control S.A.

End Customer : Athens Exchange S.A.

Project Description : Engineering design Supply of equipment and Installation of Public Information Display System implemented by forty Plasma screens, project delivered successfully in 2008.

Υπουργείο Εμπορικής Ναυτιλίας,
Αιγαίου και Νησιωτικής Πολιτικής

Customer : Ministry of Shipping

Project Description : Engineering design
Supply of equipment and Installation of
Projection System, Conference System and
Audio equipment for the implementation of
the Press Conference Room of the Ministry ,
project delivered successfully in 2009.

ΥΠΟΥΡΓΕΙΟ ΠΟΛΙΤΙΣΜΟΥ
ΑΡΧΑΙΟΛΟΓΙΚΟ ΜΟΥΣΕΙΟ ΟΛΥΜΠΙΑΣ

Customer : MEDICON Ltd.

End Customer : Olympia Museum

Project Description : Engineering design
Supply of equipment and Installation of a
Virtual Reality Room implemented with tree
stereoscopic projectors, project delivered
successfully in 2007.

ΕΘΝΙΚΗ
ΛΥΡΙΚΗ
ΣΚΗΝΗ

Customer : National Opera

Project Description : : Engineering design
Supply of equipment and Installation of an
LCD Technology projection system , 6.500
ANSI Lumens , project delivered
successfully in 2006.

Customer : Athens Badminton Cultural
Development S.A.

Project Description : Supply of equipment
of a) two LCD Technology projection system
, 6.500 ANSI Lumens , project delivered
successfully in 2008 b) two LCD Technology
projection system , 6.500 ANSI Lumens ,
project delivered successfully in 2009.

Customer: MITERA General Clinic

Project Description: Engineering design Supply of equipment and Installation of a Public Address System as well as the stature cabling installation project delivered successfully in 2009.

Customer: University of Ioannina

Project Description: Supply of equipment and Installation of a 3D Application implemented by one 3-Chip DLP FULL HD stereoscopic projector, one projection screen and a 3D Server project delivered successfully in 2008.

Customer: Space Hellas S.A.

End Customer: University of Ioannina

Project Description: Supply of equipment and Installation of a 3D Cave implemented by Three 3-Chip DLP FULL HD stereoscopic projectors one system with three back projection screens, three 3D Servers and a tracking System, project delivered successfully in 2009.

Customer: Diathlasis S.A.

End Customer: Michalis Kakogiannis Foundation

Project Description: Engineering design Supply of equipment and Installation of one 3-Chip DLP projection System and one Media Server, project delivered successfully in 2009.

EXPRESS SERVICE

Customer : Express Service S.A.

Project Description : Engineering design
Supply of equipment and Installation of two
Video Wall for the flit tracking control and a
thirty-two clients Digital Signage System,
project delivered successfully in 2008.

Customer : Mantis Group of Companies

Project Description : Engineering design
Supply of equipment and Installation of a 28
cameras CCTV system as well as the Digital
Recording Systems and the Controllers,
project delivered successfully in 2004.

Customer : • oliousis -Psaroudakis

End Customer : Grekis Form Services

Project Description Engineering design
Supply of equipment and Installation of a 29
cameras CCTV system as well as the Digital
Recording Systems and the Controllers,
project delivered successfully in 2005.

Customer: STER CINEMAS

Project Description: Design, supply and
installation of a) a 3-point Public Information
Display System, consisting of Monitor Plasma 42,
project delivered successfully in year 2006 b) two
(2) Digital 3D Cinema systems, project delivered
successfully in 2009 and c) six (6) Digital 3D
Cinema systems, project delivered successfully in
2010.

THALES

Customer: THALES

Project Description: Engineering design, supply and installation a) of a 13-point Integrated CCTV System, including its construction equipment, project delivered successfully in 2004. b) of a Simulation System with projectors for manipulating battle tanks, project delivered successfully in year 2005 c) of a 3-point Public Information Display System, consisting of Monitor Plasma 50", project delivered successfully in year 2004

ThalesRaytheonSystems

Customer: ThalesRaytheonSystems (TRS)

Project Description: Engineering design, supply and installation of an Integrated Back-Projection Control Room System, as well as 3 more integrated systems for managing and displaying digital content, which were used by the specific business company to officially present the "C4I" System to the Government Conveyors, project delivered successfully in year 2002 .

OPAP

Customer: OPAP S.A.

Project Description: Engineering design, supply and installation of a 20-point Digital Content Display System, consisting of monitor Plasma 42" and Matrix Switchers, project delivered successfully in 2005.

athens
METRO
MALL
για κάθε στιγμή

Customer: TALIMA VENTURE INC.

Project Description: Engineering design, supply and installation of a 60-point Dynamic Signage System, consisting of Monitor LCD 47", server, media players, as well as specialized digital signage management software, project delivered successfully in 2010.

Customer: D.J. KARAPATAKIS & SONS Ltd.
Project Description: Engineering design, supply and installation of 3D Digital Cinema equipment at four (4) new 3D digital cinema sites at Cyprus, consisting of the newest technology DLP cinema projectors, cinema servers, as well as the corresponding 3D cinema system, project delivered successfully in 2011.

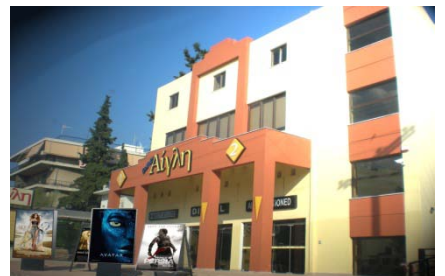

Customer: Saint Paul's Institute
Project Description: Engineering design, supply and installation of an interactive system appropriate for teaching in an exemplary digital classroom of an elementary school, consisting of a front-display, interactive touch board, a multimedia audio system and a DLP projector, project delivered successfully in 2010.

Customer: Association of Professional Bet Agencies
End Customer: Bet Agencies all over Greece
Project Description: Supply of a Public Information Display system, consisting of 579 commercial monitors LCD 42", project delivered successfully in 2010.

Customer: KINIMATOΓΡΑΦΙΚΗ & KATASKEVASTIKI

Customer: GOUTOS KTIZEIN
Project Description: Engineering design, supply and installation of an integrated videoconference system for the company's meeting rooms in both Alimos & Porto Heli, project delivered successfully in year 2007.

Customer: GREEK ENTERTAINMENT PARKS S.A.
Project Description: Engineering design, supply and installation of a Plasma Video Wall with mobile pedestal and matrix switcher for the display of the Olympic Games of 2004, project delivered successfully in year 2004.

Customer: National Committee of Telecommunications & Post-Offices
Project Description: Engineering design, supply and installation of an integrated videoconference system for the CEO Consultant of the Organization, project delivered successfully in year 2006.

Customer: 114 Battle Wing / 331 Squadron
Project Description: Engineering design, supply and installation of an integrated presentation system consisted of a projector, Plasma screens and an audio system for the Briefing Room of 114 Battle Wing / 331 Squadron, project delivered successfully in year 2005.

Customer: PROCTER & GAMBLE HELLAS

Project Description: Engineering design , supply and installation of a) a 5-point Integrated Dynamic Signage System and an Audio Conference system, project delivered successfully in year 2004 b) projector, electric screen and Plasma screen, project delivered successfully in year 2004 c) Infocaster system, project delivered successfully in year 2004; d) Technical Support Contract, project delivered successfully in year 2004.

Customer: BANK of AMERICA

Project Description: : Engineering design, supply and installation of an integrated videoconference system for the bank's meeting room, project delivered successfully in year 2005.

Customer: Digital Computer Systems S.A.

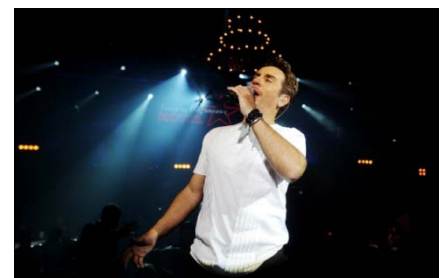

Project Description: : Engineering design, supply and installation of a) two (2) exterior, LED-technology billboards at Korinthos & Loutraki, project delivered successfully in year 2004 b) Technical Support Contract, project delivered successfully in year 2004.

ΒΟΤΑΝΙΚΟΣ

Customer: Priovolou Bros

Project Description: Supply and installation of a 21 m2 LED system, consisting of 18 high-technology panels and controller, project delivered successfully in year 2008.

SIEMENS

Customer: SIEMENS S.A.

Project Description: Engineering design, supply and installation of a) a Video Wall system for the Control Room of the Public Electricity Enterprise, consisted of a back-projection cube, project delivered successfully in year 2004 b) a system, consisted of a projector of 6500 ANSI Lumens and a electric screen, for managing electronically the water supply facilities in Chalkida - Greece, project delivered successfully in year 2006.

ALTER

Customer: ALTER CHANNEL

Project Description : Engineering design, supply and installation of a Plasma Wall System consisted of 12 plasma monitor 42", project delivered successfully in year 2007.

Customer: MEMOS IOANNIS

Project Description: Supply of in-out door, 24.6m2 - LED system, consisting of 18 high-technology panels and controller, project delivered successfully in year 2005.

Customer: BODOSAKIS' INSTITUTE

Project Description: Engineering design, supply and installation of five (5) professional hi-tech monitors of 21" & 34", project delivered successfully in year 2007.

Customer: HYATT REGENCY S.A.

Project Description: Engineering design, supply and installation of a) a 5-point Dynamic Signage System, consisted of professional LCD monitors, for the information & entertainment of the customers of Texas Hold'em Poker hall, project delivered successfully in year 2010 b) a 6-point Dynamic Signage System, consisted of professional LCD monitors, project delivered successfully in year 2009 c) a of 9.000 ANSI Lumens projector for "Bergina" Theater, project delivered successfully in year 2009 d) a 10.000 ANSI Lumens projector, project delivered successfully in year 2009.

COMPANY PROFILE

Space Vision was founded in October 2002 by a team of engineers and businessmen with vast experience in the area of electronics and audiovisual systems. The main goal of the company's founders was the creation of a flexible and dynamic enterprise, which would bring a new era in the field of the audiovisual solutions in Greece.

Since its foundation, our company has established a high reputation over the years, by implementing medium and large-scale projects and has managed to hold one of the highest positions in the area of AudioVisual Integrators in the Greek Market.

The company's activities vary from the trade, installation and engineering of audiovisual systems to the implementation of turnkey projects.

Today, the name of Space Vision stands out in hundreds of high-tech installations in cinemas, studios, classrooms, meeting rooms, auditoriums, convention centers, theaters and museums across a broad spectrum of public and private organizations and agencies all over Greece.
